Explanations	

Our Company has achieved the "C" grade and was evaluated as "the company that handles climate risks at the awareness level"; as a result of the Carbon Disclosure Project (CDP - Carbon Disclosure Project) Climate Change Reporting.

In addition, our Company has been evaluated at the "management" level by obtaining a "B" grade according to the Supplier Engagement Rating (SER) with its data in 2021.

CDP is an international non-profit based in London, that works to transform the way the world does business to reduce the negative impacts of climate change and protect our natural resources. CDP has been working as an intermediary for publicly held companies to report to their investors on how they use natural resources and the natural capital, how their activities influence regeneration of limited resources and how they manage the risks in this field.

Yours faithfully,

The English translation of this disclosure is provided and in case of any discrepancy between the Turkish and the English versions of this disclosure, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in "Material Events Communiqué" of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we're personally liable for the disclosures.
