Karsan, moving full speed ahead with domestic deliveries, recently delivered 28 Jest + minibuses to Barakfakih Town in the Kestel district of Bursa, which one of the most important and highly developed cities in Turkey. A ceremony was held to mark the delivery of Jest+ minibuses to the Minibus Drivers Motor Carriers Cooperative of Barakfakih Town. Attendees included Alinur Aktaş, Mayor of the Bursa Metropolitan Municipality, Önder Tanır, Mayor of Kestel, Mehmet Kürşat Çapar, General Director of Burulaş, Sadi Eren, President of Bursa Chamber of Private Public Bus Drivers, İbrahim Anaç, President of Minibus Drivers Motor Carriers Cooperative of Barakfakih Town, Muhsin Koçaslan, Board Member of Bursa Chamber of Commerce and Industry and Adil Aydın, Sales Manager of Koçaslanlar Automotive, a Bursa Karsan Dealer. The new vehicles were put into service on the line between Barakfakih and Kestel, the end destination at Bursa city center.

Distinction of Karsan Jest+ in Public Transportation

Karsan Jest+, performing successfully and saving fuel with its Euro 5 engine and 6-speed gearbox transmission, creates a comfortable transportation experience and provides maximum efficiency with its high-performance hard-working engine. Thanks to its low maintenance costs Jest+ keeps a competitive edge. In addition to its high climbing ability, Karsan Jest+ provides operators with significant advantages in terms of accident

prevention with its hill start aid and lane departure warning system, as well as stand out with a low floor that is accessible for all. Its low turning radius allows Karsan Jest+ to easily overcome the most difficult maneuvers even in the heaviest traffic in the heart of the city. Jest+ offers passengers a comfortable traveling experience with different layout alternatives ranging from 10 to 15 front-facing seats.

About Karsan:

Celebrating its 54th anniversary in the Turkish automotive industry, Karsan has been manufacturing its own vehicles, as well as parts for the world's prominent brands in the commercial vehicles sector at its modern facilities. The company has been engaged in commercial vehicle production since 1981, and its factory in Hasanağa in Bursa has the capacity to manufacture up to 19,870 vehicles a year on a single shift. The Hasanağa factory is a flexible installation that can manufacture all kinds of vehicles in the same facilities from passenger cars and heavy trucks to minivans and buses. It is located 30 km from the Bursa city center and has been established on an area of 200,000 sqm, 90,000 sqm of which is closed space.

Karsan has been the only independent multi-brand vehicle manufacturer in Turkey for more than 50 years and the next phase for the company, powered and enabled by its business partners and licensors, is to develop bespoke versions of new and existing vehicles in order to extend its presence to all segments of cargo and passenger transportation. Working to "develop innovative products and services from the idea to the market" and to cater to every market segment, Karsan primarily aims to strengthen its Main Manufacturer/OEM business line. Karsan manages its whole automotive value chain from R&D and manufacturing to marketing, sales and after-sales activities.

Currently, the company manufactures the new H350 light commercial vehicles for Hyundai Motor Company (HMC), 10-12-18 m buses for Menarinibus and its own Jest, Atak and Star models. It also produces fully electric vehicles, its much-celebrated Jest Electric and Atak Electric line, in partnership with the world giant BMW. Besides vehicle manufacturing, Karsan also provides a range of industrial services in its Organized Industrial Zone factory.
